

SUMMIT HILL®

Specifications for 3/4" thick shutters

BEADED

NON BEADED

L stiles
3/4" thick x 1-3/8" wide stiles
5/8" thick offset rails

Louver profiles (may vary slightly from drawings):

1-1/4" Traditional

1-1/4" Antebellum

1-3/4" Antebellum

2-1/2" Antebellum

3-1/2" Antebellum

Installation Types

I-1 Installation
Panels installed on the face of the casing without hanging strips (Louver blade protrusion and stile width require consideration.)

I-2 Installation
Hanging strips beside the panels, on the face of the casing (Summit Hill will deduct from your width dimension to accommodate the strips.)

I-3 Installation
Hanging strips behind the panels, on the face of the casing

I-4 Installation
Hanging strips on the wall, beside the casing and behind the panels. (Summit Hill will add to your width dimension to accommodate the strips.)

Installation Types (continued)

I-5 Installation

Hanging strips on the wall, beside the casing and beside the panels. (Note casing thickness when ordering.)

I-7 Installation

Panels installed inside the window directly to the wood jamb

I-8 Installation

Inside mount with hanging strips beside the panels

I-9 Installation

Inside mount with hanging strips behind the panels

Installation Types (continued)

I-11 Installation

Hanging strips on the wall, beside the panels
(For windows without casing)

Please note that on all installation types, louver protrusion requires consideration. On installations with hanging strips, Summit Hill will help you determine the correct hanging strip size.

Rabbeting

Panels overlap each other for light control. Rabbeted shutters are automatically beaded.
(See L stile profile for beading detail.)

Product Warranty

Summit Hill warrants that its properly maintained shutters will be defect free in terms of material, construction and workmanship for a period of 2 years. Conditions caused or resulting from accidents, alterations, misuse, abuse and exposure to the elements, fire, flood or other acts of god or improper maintenance are not included. This warranty does not apply to conditions characteristic to the product caused by normal wear and tear upon the product.

Important: Moisture will damage the finish and may cause damage to the wood underneath. Unfinished shutters should be sealed and finished as soon as possible and must be properly stored beforehand. Extreme temperatures and humidity may damage unfinished wood.

Also note that shutters do not provide a total “black out” of light.

All claims for incorrect or defective merchandise must be made within 5 days of receipt of merchandise. Any errors in the fulfillment of the order, or defects in the product must be brought to our attention before finishing, installation or alteration.

Summit Hill, at its discretion, will repair or replace any product determined to be defective by Summit Hill. This warranty does not include any trip charges or costs of labor to remove, reinstall or finish the product.

Please note any shipping damage before signing for a shipment and notify Summit Hill within 24 hours.
